Achievements and Overcoming Challenges

Challenges Faced

- Demanding deadlines and last-minute feature requests from leadership.
- Handling end-to-end QA processes without a dedicated team.
- Limited resources due to team downsizing
- Many bugs are still found after launch

Achievements and Overcoming
Challenges

Outcomes Achieved

- Delivered fully tested features and functionalities under extremely tight schedules.
- Conducted thorough API, performance, stress testing, and basic security assessments.
- Prepared post-mortem reports for production bugs to improve processes.

Achievements and Overcoming Challenges

Outcomes Achieved

Achievements and Overcoming Challenges

Tools Utilized

- Notion – For scenario test cases, UAT, and post-mortem documentation.
- Asana – For bug - issue reporting and tracking.
- Browserstack – For multi-device testing.
- Postman & MochaJS – For API testing and automation (e.g., testing Leaderboard).
- JMeter – For API testing, server performance, and application stress testing.
- Cypress – For E2E testing of the Mythic Repository.

Blockchain

- Metamask, Etherscan, and Testnet – For Ethereum transaction testing.
- OpenSea, Blur, and other marketplaces – For NFT testing

Future Plans & Goals

Looking Forward to 2025

Long-Term Goals

- Build a resilient and collaborative “QA team”.
- Advocate for QA involvement earlier in project lifecycles.
- Explore AI-based tools to further optimize testing processes.

Short-Term Goals

- Develop advanced automation scripts for repetitive test cases.
- Enhance Web3 and blockchain testing processes for scalability.
- Improve post-release QA workflows to minimize production bugs.

Support Needed

Additional resources to rebuild a comprehensive QA team.

Bug Reporting & Tracking

Performance & Stress Testing

Security Testing

Smart Contract Testing

Automation Testing

Collaboration & Communication

Web3 Knowledge Growth

Leadership & Mentoring

Over the past year as a Web3 QA Lead, I've excelled in multiple aspects of testing, including **testing coverage**, **automation**, **performance**, and **security testing**. My ability to **collaborate**, **lead QA team**, and **integrate testing** has significantly improved the overall quality of the projects I worked on. My **Web3 knowledge** has grown steadily, especially in **blockchain**, **Metamask**, **NFTs**, and **DeFi**, making me a valuable asset in the Web3 space.

Final Verdict: I've Top Performance in 2024!

Thank you!

Raiza Kurniawan

2024 was a year full of adventures that taught me all about resilience and creativity! I'm super excited that with the right plans and awesome support, 2025 is gonna be an even more productive and joyful year!

PERFORMANCE REVIEW REPORT 2024
